

Paddle Report Golden Beach 11/4/2015

Golden Beach Power boat club 8.00am overcast skies but no rain and no wind a lot better than the forecast and perfect for paddling. 10 club paddlers including 3 new club members Helena, Solvej and Martin having their first Grade 1 paddle start.

We headed south down the passage for about 3 kms before turning around and coming back to land opposite the power boat club on Bribie's western shore and walking over to the surf beach.

We were joined here by Simmo and Gil now an even dozen. After a short break we paddled 4 kms down to the Caloundra bar where we stopped for morning tea.

After a 20 minute break we paddled a little closer to the edge of the bar knowing that there was a strong incoming tide (so no one would get swept out to sea).

Some of the more experienced paddlers practised their rolls then we headed back to the power boat club with a strong tide at our backs and a slight wind in our faces. The weather stayed perfect the whole paddle and I think everybody enjoyed the paddle and the company.
